- ◆ Troubleshooting

Professional Experience

Mechanical Technician
Morrison Manufacturing Inc., Cincinnati, OH | May 2021 - Present

- Perform preventative maintenance and repairs for all plant equipment, production systems, and conveyors, and conduct inspections on assemblies and components
- Ensure compliance with OSHA safety regulations and company protocols and create incident reports on accidents and equipment failures
- Perform installation and dismantling of parts and equipment using power tools, cranes, and heavy machinery
- Coordinate with production teams to reduce downtime by 10% by improving scheduling procedures for preventative maintenance

Rigging Apprentice
Robertson Construction Partners, Cincinnati, OH | May 2020 - May 2021

- Operated forklifts, cranes, and heavy equipment for three construction projects, which included performing equipment maintenance and rigging activities
- Conducted equipment repairs and performed testing to ensure optimal functionality
- ◆ Attended team meetings to establish safety protocols and evaluate potential hazards to prevent incidents during construction
