

Victor Santos

123 Your Street, Los Angeles, CA 12345 victorsantos@example.com (123) 456-7890

A Chemist with entry-level experience, specializing in organic chemistry, R &D, laboratory operations, and qualitative analysis. Adept at performing experiments to develop new products in highly-controlled Laboratory environments.

Education

Bachelor of Science (B.S.)

Chemistry

University of California,
Los Angeles, CA
September 2017 - May 2021

Key Skills

- Organic Chemistry
- Research & Development
- Formula Development
- Statistical Analysis
- Laboratory Safety

Certifications

- Certified Chemical Technician (CCT), 2021

Professional Experience

Chemistry Internship

Arkline Research Inc., Los Angeles, CA | May 2021 - Present

- Coordinate with a team of chemists and materials scientists to perform silver sulfide nanoplatelet synthesis and support R&D activities for initial proof of concept
- Conduct chemical testing, analysis, and research using organic chemistry formulas, evaluate project requirements, and attend meetings to review research findings
- Support interdisciplinary teams in evaluating mass spectroscopy data, maintaining safe laboratory environments, and handling hazardous materials

Academic Experience

Academic Projects

University of California, Los Angeles, CA | September 2020 - May 2021

- Conducted a study to compare the aroma compounds of gluten-free beer and malt beverages containing gluten, which included performing statistical analysis
- Performed online research, laboratory research, and data analysis
