PROFESSIONAL EXPERIENCE

JUNIOR BIOLOGIST

Clean Energy Inc., Atlanta, GA
May 2021-Present

- Conduct environmental studies on wetland habitats to assess the impact of development projects on wildlife for a renewable energy company
- Coordinate with a team of biologists to perform field investigations on potential environmental risks and ensure compliance with environmental protection laws
- Gather, interpret, and present data on findings using data mapping techniques to aid key decision-makers in evaluating risk factors and project roadmaps

ACADEMIC EXPERIENCE

ACADEMIC PROJECTS

University of Atlanta, Atlanta, GA
September 2020 - May 2021

- ◆ Wrote a 20-page capstone paper evaluating the impact of gypsy moths (*Lymantria dispar*) on plant life and animal habitats, which included analyzing long-term environmental ramifications
- ◆ Perform a research project evaluating the ecological impact of deforestation and habitat destruction on four endangered species in California

EDUCATION

Bachelor of Science (B.S.) Biology
University of Atlanta, Atlanta, GA
September 2017 - May 2021

KEY SKILLS

- ◆ Biology
- ◆ Environmental Science
- ◆ Ecology
- ◆ Wildlife
- ◆ Data Mapping

CERTIFICATIONS

- ◆ Administrative Assistant Certification, National Career Certification Board, 2013
- Certified Microsoft Office Specialist, 2014
