- CompTIA Security+®, 2014

A Cyber Security Analyst with eight years of professional experience specializing in information security, disaster recovery, incident response, and vulnerability assessment. A strong history of enhancing security protocols and mitigating the risk of cyber threats for large organizations.

## PROFESSIONAL EXPERIENCE

### Senior Cyber Security Analyst

Avion Pharmaceuticals Inc., Detroit, MI | October 2016 - Present

- Manage a 15-person cyber security team to monitor attacks, unauthorized access, and suspicious activity impacting sensitive information, patents, and products for a multi-million-dollar pharmaceutical corporation
- Conduct root cause analysis for unauthorized access attempts, create security logs, and develop new information security management policies to reduce the risk of intrusion
- Liaise with data privacy, legal, IT management, and compliance departments to assess findings of security audits and restructure policies to preserve data integrity

### Cyber Security Analyst

DoorDash, Detroit, MI | May 2014-October 2016

- Conducted cyber security audits and investigations into fraudulent activities impacting Dasher direct, including unauthorized user access and theft
- Coordinated with the IT Department to develop and implement new cyber security procedures to ensure the security of dasher funds and account access
