

Jennifer Roberts

A Patient Care Technician with entry-level work experience, specializing in healthcare support, communication, patient care, and pediatric health. A strong background in collaborating with healthcare teams and patients to improve outcomes and treatment results. Adept at monitoring patient symptoms and recording findings for physicians and nurses.

Professional Experience

Patient Care Technician

Cincinnati Medical Center, Cincinnati, OH | September 2021 - Present

- ◆ Gather patient data to ensure accurate medical records, identify, monitor, and record symptoms in patient charts, and deliver findings to nurses and physicians
- Reposition and transport patients throughout the hospital and ensure compliance with protocols for patient safety
- Provide support for activities of daily living (ADLs), including cleaning, feeding, bathroom usage, and phone calls
- Ensure compliance with Covid-19 safety protocols and disease prevention policies during family visitations and patient transport

Volunteerism Experience

Volunteer

Cincinnati Open Clinic, Cincinnati, OH | June 2020 - September 2021

- Provided volunteer support for a non-profit clinic servicing homeless and low-income patients in the inner city
- Scheduled appointments at the front desk, coordinated walk-in patients, and created documentation for medical professionals on patient medical history
