Professional Experience

Speech Language Pathologist

John C. Lincoln Medical Center, Rehabilitation Clinic, Phoenix, AZ | January 2019 - Present

- Manage initial interviews with clients who have experienced strokes or other physical challenges to recommend appropriate treatment
- Program and instruct clients on the use of augmentative alternative communication devices
- Exceed patient targets for swallowing and speech ability by an average of 15% each quarter
- Work with an average of eight clients a day for whom I was the primary speech language professional

Speech Language Pathologist

Phoenix Rehabilitation Services | August 2013 - December 2018

- Assisted clients in developing clearer, more easily understood speech following illness or injury that impeded communication or swallowing
- Worked in collaboration with medical and social work professionals to assess clients and determine the best possible treatment plans for high quality of Life
- Provided education and training for clients and their families to ensure that recovery continued in the home and after the cessation of clinical treatments
- Programmed and modified assistive communications devices for clients when this was the best course of action
- Primary pathologist for Spanish-Language patients, providing services in their native Language to ensure proper understanding and adjusting treatment plans as needed
