

Felicia Gray

A Journeyman Plumber with six years of experience, specializing in residential plumbing, water lines, septic systems, and contractor management. A strong history of executing installations and repairs for large home remodeling projects. Adept at leading apprentice plumbers and contractors to ensure quality deliverables.

Professional Experience

Plumbing Technician

Brooklyn Plumbing Co., New York, NY May 2018- Present

- Lead the installation and repair of plumbing systems, water lines, pipe fixtures, toilets, sinks, and drainage systems for home remodeling projects valued at up to \$100K
- Analyze blueprints to identify potential risks and project roadblocks and conduct inspections of piping systems to diagnose root causes
- Manage project teams of up to six apprentice plumbers, assigned responsibilities, prioritized project tasks, and ensure compliance with OSHA safety

Apprentice Plumber

Manhattan Plumbing Pros, New York, NY September 2016- May 2018

- Collaborated with plumbing technicians to install sinks, toilets, pipes, water heaters, and HVAC systems for 15+ clients per week
- Interfaced with customers to identify issues, provide recommendations for pipe replacements, and deliver high-quality customer service
